

# CUSTOMER FEEDBACK AI

Overall Customer Feedback Report  
Generated on 18 August 2026, 09:22 AM

## Management Report

This report summarizes customer feedback at an organizational level. It highlights overall sentiment, major customer concerns, business findings, complaint trends and recommended actions.

### 1. Executive Summary

Customer sentiment is predominantly negative, indicating a significant level of customer dissatisfaction that requires management attention.

A total of **21,214** customer reviews were analyzed. The dominant sentiment was **Negative**. The largest identified customer concern was **Delivery**, appearing in **8,411** reviews (39.65%).

### 2. Sentiment Overview

| Sentiment | Review Count | Percentage |
|-----------|--------------|------------|
| Negative  | 14,555       | 68.61%     |
| Neutral   | 1,608        | 7.58%      |
| Positive  | 5,051        | 23.81%     |

**Management observation:** 68.61% of analyzed reviews are negative, compared with 23.81% positive reviews.

### 3. Key Business Findings

- Negative customer feedback exceeds positive feedback and should be treated as the primary business improvement signal.
- Delivery is the largest identified customer concern with 8,411 related reviews.
- Customer Service is the second-largest identified concern with 6,492 related reviews.
- Complaint activity appears relatively stable. Major customer concerns should continue to be monitored.

### 4. Top Customer Concerns

| Rank | Concern          | Reviews | Percentage |
|------|------------------|---------|------------|
| 1    | Delivery         | 8,411   | 39.65%     |
| 2    | Customer Service | 6,492   | 30.60%     |
| 3    | Refund           | 3,833   | 18.07%     |
| 4    | Return           | 2,874   | 13.55%     |
| 5    | Price            | 2,654   | 12.51%     |
| 6    | Payment          | 2,449   | 11.54%     |
| 7    | Packaging        | 2,328   | 10.97%     |
| 8    | Product Quality  | 1,923   | 9.06%      |
| 9    | Product Features | 555     | 2.62%      |

### 5. Recommended Business Actions

- Investigate delivery delays, shipping performance and logistics operations.
- Improve customer service response times, staff responsiveness and issue resolution.
- Review refund processing times and identify recurring refund-related failures.

- 4. Analyze the return and replacement process for recurring customer difficulties.
- 5. Review pricing, customer value perception and competitive positioning.

## 6. Complaint Trend

Current trend assessment: STABLE

| Month   | Total Reviews | Negative Reviews |
|---------|---------------|------------------|
| 2023-10 | 311           | 240              |
| 2023-11 | 354           | 304              |
| 2023-12 | 393           | 322              |
| 2024-01 | 286           | 231              |
| 2024-02 | 288           | 239              |
| 2024-03 | 291           | 241              |
| 2024-04 | 284           | 235              |
| 2024-05 | 307           | 256              |
| 2024-06 | 349           | 298              |
| 2024-07 | 399           | 334              |
| 2024-08 | 375           | 309              |
| 2024-09 | 242           | 198              |

## 7. Management Conclusion

The analysis indicates that customer dissatisfaction is the dominant feedback pattern. Management attention should initially focus on the highest-volume customer concerns, particularly Delivery. Improvements should be tracked through future feedback analysis to determine whether sentiment and complaint levels improve.

This report was generated automatically by Customer Feedback AI from the analyzed customer feedback dataset.
